

GoogYield Whitepaper

1. Introduction

GoogYield is an innovative token backed by the performance of Google (GOOGL) shares, offering a sustainable structure for perpetual income generation. Our mission is to create a digital asset that combines the security of traditional investments with the flexibility of cryptocurrencies.

2. Overview of GoogYield

2.1 What is GoogYield?

GoogYield is a token built on the Ethereum blockchain (ERC-20), with a model that converts part of the captured assets into Google shares. Dividends from these shares are distributed to token holders, ensuring a continuous stream of income.

2.2 Token Structure

- Total supply: 10,000,000 tokens
- Distribution:
 - 70% reserved for custody and share acquisition
 - 30% in circulation:
 - 10% sold in the initial fundraising round
 - 20% released in later phases
- Dividends paid directly in USD stablecoins to token holder wallets

3. Business Model

3.1 Asset Acquisition and Income Generation

The GoogYield SPV (Special Purpose Vehicle) will use the raised funds to acquire Google shares.

The dividends generated will be distributed as follows:

- 60% to token holders
- 30% reinvested in more Google shares
- 10% for liquidity and structure maintenance

4. Initial Fundraising and Growth Strategy

4.1 Initial Fundraising (Private Sale)

- Initial offer: 1,000,000 tokens (10% of total supply)
- Price: \$5 per token
- Accepted payments: USDT, USDC, BTC
- Goal: Raise funds to start purchasing Google shares and structure the SPV

4.2 Later Phases

After the initial fundraising, new token batches will be released according to project growth.

5. Security and Transparency

- Audited smart contracts
- Optional KYC (Know Your Customer) for investors seeking additional security
- Regular audits of the SPV to ensure proper fund allocation

6. Conclusion

GoogYield is an innovative project that merges the best of traditional and crypto markets. With a sustainable and secure model, we offer investors the opportunity to benefit from the growth of one of the world's largest companies while receiving consistent returns in stablecoins.
